Dear Friends,

We're excited to share important news about a major renovation and redevelopment project at Presvetog Trojstvo Croatian Catholic Church and Parish Hall in Oakville. For 50 years, our church has been a cornerstone of the Croatian community—a place where our heritage is preserved, our youth connect, our businesses network, and our parishioners celebrate faith and culture together.

Today, with more than 700 families—many with young children—calling this parish home, our facilities no longer meet the growing needs of our congregation. The church and hall are showing their age and limiting the services we can offer.

As a result, we have proposed to modernize and upgrade our church, parish hall, and supporting facilities. These much-needed improvements, which include major upgrades such as roof replacement, restoration of the kitchen, washrooms, and bar, as well as other exterior changes will enhance the comfort, safety, and accessibility of our space, allowing us to continue offering cultural and community services for years to come.

As with any large undertaking, this project comes with significant financial commitments. That's why we are reaching out to our Croatian business community for support.

Please help us reach our goal. We welcome contributions (tax receipt will be provided) in the form of:

- **Financial donations**
- **Donated materials used in the construction process**
- **Goods or services for use in raffles, auctions, or other fundraising efforts**

Your support will have a direct impact on the success of this project.

If you can contribute financially, please:
